8th Joint International Conference

CLOTECH'2008

on

INNOVATIVE MATERIALS & TECHNOLOGIES IN MADE-UP TEXTILE ARTICLES AND FOOTWEAR

organized by

Technical University of Lodz
Department of Clothing
Technology

Kazimierz Pułaski Technical
University of Radom
Department of Shoes and
Clothing Materials Technology

12-13 June 2008

CONFERENCE TOPICS

The 8th Joint International Conference CLOTECH'2008 will be focused on the popularization of achievements of the domestic and foreign research centres in the fields of:

- new raw materials in the clothing production,
- commodity science of footwear,
- material design for clothing,
- intelligent textiles,
- utility comfort of clothing,
- technology of half-products and made-up articles,
- computer techniques in the apparel manufacturing,
- textile finishing,
- clothing for special applications,
- marketing of made-up articles.

The aim of the conference is to popularize and to increase the knowledge level of academic and industrial staff as well as students on the new technical ideas in the textiles, made-up textile articles and footwear.

The 8th Joint International Conference is a continuation of four International Conferences *Leather, Clothing and Footwear Design, Materials and Technology*, which were organized by The Department of Shoes and Clothing Materials Technology (Kazimierz Pułaski Technical University of Radom) in 2000, 2002, 2004, 2006 and three domestic conferences *CLOTECH* held in 2003, 2004 and 2006, organized by The Department of Clothing Technology (Technical University of Lodz).

Proceedings will be edited in English
